

SAFE ZONE

Keep any important elements such as text, logos, graphics, or photos inside this border to prevent unintentional printing on the fold or being too close to the cut edge - unless you want the image to bleed to the edge.

TRIM

The final piece will be cut on the trim line.

BLEED

If you want your design to print to the edge of your final piece, extend background images and/or color floods to the orange bleed line. We require a 1/8" (.0625") bleed on each edge.
